

"Alcom sells and markets a complete range of DC/DC converters, Power Supplies; DC/AC Sine Wave Inverters and mains transformers concentrated on a market segment from approximately 0.5 to 1000 Watt. Alcom carries a selected number of manufacturers who combine the skills of the best design engineers with cost effective production lines, often in the Far East. This allows us to offer Power Conversion products at an optimal price / performance ratio.

A snapshot of our products: DC/DC converters-PCB & 19" mounting; AC/DC universal power supplies with very wide input range; Din-rail power supplies; Power supply adapters and chargers; PCB & Single/ triple phase transformers. Simply put, Alcom is strong in delivering "Power Solutions" and is ready to help you identifying the perfect power solution for your latest application."

POWER CONVERSION

SynQor

DC-DC power converters, EMI Filters and AC-DC power supply conversion solutions.

Product Selection - Power Conversion

- Low Power AC-to-DC Power Supplies
- AC/DC Power Modules
- AC/DC Power Supplies-Industrial, Telecom, Medical, Military
- Plug-in Power
- LED Power
- DC/DC Converters-Industrial, Telecom, Military, Vehicle
- DC/AC Sine Wave Power Inverters
- Battery Chargers
- UPS Power
- Transformers
